

# **OVERVIEW** SWITCHES & PROXIMITY SENSORS

MICROSWITCHES LIMIT SWITCHES MANUALLY OPERATED SWITCHES PROXIMITY SENSORS

switches.crouzet.com

# **ABOUT CROUZET**

Switches & Position Sensors line offers snap action technology expertise through microswitches, limit switches and manually operated switches which are adaptable in terms of connectors, lever or body size. The range also includes proximity sensors and switches. These high quality and reliable products are suitable and crucial in harsh environments with severe constraints.

Crouzet is a brand of InnoVista Sensors™.

#### MARKETS

Crouzet has worked for decades with customers who design products for highly technical applications that demand superior quality, reliability and meet national and international regulatory standards. Crouzet's switches and sensors are utilized in a wide spectrum of applications in the following markets:

Industrial Valve & Pumps

- > Nuclear Industry
- > Energy Distribution
- > Trains
- > Specialty vehicles

InnoVista Sensors<sup>™</sup> is a worldwide industrial specialist of sensors, controllers and actuators for automated systems.

Through its brands, Crouzet and Systron Donner Inertial, InnoVista Sensors™ offers a wide range of reliable, efficient and customizable components dedicated to the Aerospace & Defense, Transportation and Industrial markets and segments.

Thanks to the recognized expertise of its teams and a strong innovation policy, InnoVista Sensors™ brings performance enhancing solutions to its customers worldwide.

InnoVista Sensors™: your trusted partner of choice to face industrial challenges of today and tomorrow.

\* Za: NO and NC circuits must be used at same polarity. \*\* Consult us Zb: NO and NC circuits are electrically separated, and can be used at opposite polarities.

## **MANUALLY OPERATED SWITCHES**

Crouzet offers a wide range of Pushbuttons, Toggles, Rockers, Triggers, Thumbsticks/Trim/Multiway and Thumbwheel/Selector switches for industrial use as well as for high spec applications:

- > Momentary and/or maintained action
- > 1 to 4-pole snap-action configurations
- > Ratings from 1 mA 5 V--- to 20 A 250 V~ / 5 A 250 V---
- > Protection degree: from IP40 to IP52
- > Temperature range: from -60 °C to +125 °C /-76 °F to +257 °F
- > Mechanical life up to 10 million cycles

## **PROXIMITY SENSORS**

Crouzet provides a complete range of Proximity Sensors with standard industrial features to high level performance features:

- > 2 or 3 wires configuration
- > 2 parts sensors integration with remote electronics
- > MTBF: 300,000 hours in operation
- > Temperature range: -65 °C to +125 °C / -85 °F to +257 F
- > Watertight or hermetic versions
- > High pressure operation

# ADAPTATION WHEEL

To meet market expectations and provide customers with the right solutions within the shortest timeframes, Crouzet has structured its processes around the different types of products available: standard products, adapted products or customers specific customized products.

2

Introducing the adaptation wheel...

#### **SPECIAL PRODUCT**

From the very start of a project, Crouzet Switches' experts work closely with your teams to develop the specifications. All our design, industrialization and approval expertise go into developing detection solutions that are tailored to your requirements.

#### **STANDARD PRODUCT**

A full range of microswitches, limit switches, manually operated switches and sensors, are immediately available so that you can design your system as quickly as possible.

#### **ADAPTED PRODUCT**

Complete coordination between your project teams and our specialists, these adapted products have exactly the right levels of performance and functionality you need for your applications. 3

## PRODUCT WITH ADDED VALUE

All our standard products can have additional factory-mounted auxiliaries or accessories, including connectors, leads, special terminals, fixings, levers, etc. Seamless integration into your equipment means you benefit from simpler logistics and optimum installation reliability.

Crouzet Automatismes SAS and its subsidiaries reserve the right to modify their products without notice. It is imperative that we should be consulted over any particular use or application of our products and it is the responsability of the buyer to establish, particularly through all the appropriate tests, that the product is suitable for the use or application. Under no circumstances will our warranty apply, nor shall we be held responsible for any application (such as any modification, addition, deletion, use in conjunction with other electrical or electronic components, circuits or assemblies, or any other unsuitable material or substance) which has not been expressly agreed by us prior to the sale of our products.
